

# BDE™1001

## DESCRIPTION

**BDE1001™** is a VOC free, phosphate free micro etching masonry cleanser. **BDE 1001™** prepares all masonry surfaces to receive specialty coating applications. **BDE 1001™** is seal and eco logo approved. **BDE 1001™** concrete cleanser removes stubborn efflorescence.

## TECHNICAL AND PRODUCT DATA

- Appearance: Clear liquid
- Freezing point: -5°F (-20°C)
- Specific gravity: 0.98-1.0
- Solubility: 100% in water
- Boiling: 212°F (100°C)
- pH: 1

## APPLICATION INSTRUCTIONS

Pre-wet the surface and apply **BDE 1001™** at the rate of 250-300 square feet per gallon. Let stand on the surface for 10 minutes. Flush through entire area with water and inspect surface to ensure all stains, efflorescence, etc. are removed. If recoating is necessary, repeat the process. To test for coating application drop water on the dry surface to make sure it absorbs into the surface immediately.

## COVERAGE

250-300 square feet per gallon. Porosity and conditions of surface will vary for each slab, a small test is recommended to achieve desired results prior to ordering.

## SPECIAL HANDLING

- D.O.T. regulation: non regulated ground shipment.
- T.D.G. corrosive liquids class 8. See SDS for more information.
- Do not allow to freeze.
- If cleaning near grass or shrubs, water well before starting.

## MAJOR ADVANTAGES

- Low pH organic salt
- Non corrosive to skin
- Non fuming
- Water soluble
- Phosphate free
- VOC free
- Stronger than hydrochloric acid
- Removes efflorescence
- Will not deteriorate masonry surfaces
- Fast and easy to use
- Cost effective
- More effective than acids such as; phosphate, citric, glycolic, sulphamic, oxalic.
