The Adams Alumni Center at the University of Kansas serves as a key landmark in the historic district. The KU Alumni Association and the University undertook renovations and expansions, culminating in the Jayhawk Welcome Center. This \$21 million, 30,000-square-foot facility is designed to create an exceptional first impression for prospective students.

Vapor Lock 20/20 concrete admixture was selected to ensure the timely installation of flooring, preserve the construction schedule and prevent concrete moisture related floor covering failure. Our leading moisture mitigation technology is the only proactive and economical solution.
