

# VAPOR LOCK™

Designed by internationally-acclaimed architects Gensler, the glassy pavilion at Rash Field features a local cafe with sweeping views of the Baltimore waterfront. The pavilion also include an iconic steel shade structure that keeps outdoor seating cool and comfortable throughout the summer.

**Vapor Lock 40/40** enhanced concrete was chosen for this unique project for its superior corrosion inhibiting qualities in addition to its water and vapor proofing properties.

RASH FIELD PARK has been planned as a safe and central place for families city-wide, supporting education & ecology, health & wellness, recreation & play, and programming & entertainment.

## AEC Team

**Architect** Gensler & Associates  
**Structural Engineer** R K & K

**Ready Mix Provider** Rowan Concrete  
**Concrete Contractor** Bay Country  
**General Contractor** Whiting Turner
